

# YOU ARE YOUR CHILD'S FIRST AND MOST IMPORTANT TEACHER

## SINGING IS LEARNING

Songs are a great way to learn literary and poetic devices and develop a deeper understanding of language.

Sing with your child.

## WRITING IS LEARNING

Writing helps us express ourselves.

Write letters to family members and friends, or start a diary you can work on together. Add a few lines every day to capture the day's best moments.

## PLAYING IS LEARNING

Pretend and dramatic play helps children develop language skills, imagination and creativity.

## TALKING IS LEARNING

Talking helps children develop vocabulary and comprehension.

Take time to listen to your child when you talk, and ask open ended questions.

## READING IS LEARNING

Reading helps us learn about the world and build character.

Ask questions to help your child evaluate what she/he has read, and relate it to her/his personal experiences.

**YOUR LOVE AND SUPPORT IS THE MAGIC  
THAT OPENS YOUR CHILD'S MIND TO LEARNING.  
TALK, SING, READ, WRITE AND PLAY,  
AND ENJOY EVERY MOMENT TOGETHER!**
