

To the Parent/Guardian of: _____ DOB: _____ Grade: _____
School: _____ Date of Notification: _____

The School District of Philadelphia and Pennsylvania Department of Health require all students attending school to be immunized.

The above student is conditionally enrolled in the School District of Philadelphia according to PA Department of Health requirements.

The Philadelphia Department of Health has issued a warning regarding recent case of measles in Pennsylvania. Your child does not have the immunizations to protect him/her from this disease. Please contact your local city district health center to have your child vaccinated. Should there be a case of measles in your child’s school, your child could be excluded from school for approximately 21 days as per the Philadelphia Department of Health recommendations.

City District Health Centers – 215-685-2933

Please see below for the specific vaccines your child is missing and take this sheet with you to your child's physician appointment

<u>Regulations are as follows for all students in grades K-12:</u>	<u>Your child needs:</u>
• 4 doses of Tetanus, Diphtheria and Acellular Pertussis (DPT) (1 dose on or after the 4 th birthday unless 3 rd dose after age 4 or is 6 months after 2 nd dose)	_____ doses of Dtap
• 4 doses of Polio (4 th dose on or after 4 th birthday & 6 months after 3 rd dose)	_____ doses of Polio
• 2 doses of Measles, Mumps, Rubella	_____ doses of MMR
• 3 doses of Hepatitis B	_____ doses of Hep B
• 2 doses of Varicella (chickenpox vaccine) (or documentation of immunity/having disease from a parent, physician, CRNP, PA or laboratory)	_____ doses of varicella

Students entering 7th grade and in grades 8-12th need the following additional vaccines:

- **1 dose of Tetanus, Diphtheria and Acellular Pertussis (TDAP)** _____ dose of Tdap
- **1 dose of Meningococcal Conjugate Vaccine (MCV)** _____ dose of MCV

Students entering grade 12 or at the age of 18 years, need the following vaccines:

- **A second dose of Meningococcal Conjugate Vaccine (MCV)** _____ dose of MCV
*If first dose was given at age of 16 years or older this dose is not needed.

We cannot overstate the importance of making sure our students are attending school every day, on time, and are healthy and ready to learn.
